

PICTURES!

We have carefully designed Kangarootime so that when teachers use it in the classroom, it will alleviate most of their time spent with required documentation, so that they have more time for interacting with your child. An added bonus is that we give them the tools to document those precious moments and send you pictures throughout the day!

PAYING TUITION HAS NEVER BEEN SO SIMPLE!

Kangarootime is the billing system for your center. This will allow you to pay the center through the app, quickly and easily. You can set up multiple payment methods and Kangarootime will alert you when payments are due. You also have the option to select 'Auto Withdraw'; this will allow you to 'set it and forget it' and never be late with a payment again!

KANGAROOTIME PARTNERS WITH PARENTS

and families to make your childcare experience better. You will love the peace of mind and the convenience of being able to peek in on your child's day from your mobile device.

You can make tuition payments from the app and conveniently submit critical paperwork such as immunizations records and medical data like allergies.

WE ARE MAKING PAPERWORK DISAPPEAR!

Our goal is to make the childcare experience paperless by delivering elegant multi-media daily reports inside the app and issuing permission slips and enrollment forms there as well.

MESSAGING IN KANGAROOTIME MAKES YOUR CHILD A PRIORITY

You will receive a 'push notification' when a teacher or director needs to communicate with you. We know that you are busy, and understand that your child is a priority. It is important to be able to communicate in 'real-time' with your child's teachers and director and we give you that capability.
